Recorded Wednesday 7 August 2024

An Evening Exchange with Hans Erik Henriksen

Unravel the intricacies of Denmark's healthcare transformation, digitalisation for supporting home treatment, and ways to advance elderly care in Australia.

Catch up on the recordings from an evening of insightful conversations with Hans Erik Henriksen. Explore Denmark's healthcare reform and its implications for the global healthcare landscape. Via three discussions, unravel the intricacies of healthcare transformation, digitalisation for supporting home treatment, and ways to advance elderly care. Explore Denmark's transformative healthcare system and its potential application in local Australian contexts.

CONVERSATION 1. DENMARK'S HEALTHCARE TRANSFORMATION

Facilitated by Monika Wheeler, CEO, Healthy North Coast

CONVERSATION 2. DIGITALISATION FOR SUPPORTING HOME TREATMENT

Facilitated by Ian Treweek, Director Digital Health Mid North Coast Local Health District

CONVERSATION 3. ADVANCING ELDERLY CARE

Facilitated by Associate Professor Kate Huggins,
Senior Researcher, Institute for Health Transformation, Deakin University

ABOUT HANS ERIK HENRIKSEN

Hans Erik Henriksen is CEO of Epital Health, which delivers patient-centered digital health solutions and services that help society and healthcare authorities manage chronic patients. Formerly the CEO of Healthcare Denmark, Hans has a solid healthcare background, including being responsible for IBM Healthcare and Life Sciences, Northern and Eastern Europe.

The Centre for Healthcare Knowledge & Innovation invites health and social care providers, program managers and policymakers, students, researchers, and anyone eager to lead positive systems reform to join on a journey to understanding the factors driving better health outcomes. Together, we can be the catalysts for change, transforming healthcare into a more equitable, patient-centered, and effective system. www.thecentrehki.com.au
